Miami is known for its incredible and glamorous resorts full of amenities and breathtaking ocean views. The Magic City is also known for extravagance, luxury, and glamour, and proof of that can be found in the most expensive rooms at some of the city's most iconic hotels. Whether you plan to stay in these massive oases where you can entertain, relax and have a once-in-a-lifetime experience, below, we present you with the most expensive rooms in Miami.

### The Penthouse Suite At Faena Miami Beach

The Penthouse Suite at this iconic hotel features bright colors and modern finishes that play off of the hotel's Art Deco lines. The design is dominated by red, animal print, and velvet, with gold accents, custom furniture by Frank Pollaro, and one-of-a-kind artworks. Views of the Caribbean Sea's turquoise waters can be enjoyed from the Penthouse Suite's floor-to-ceiling windows. In total, the 14 507 square foot suite has five bedrooms, each with a private balcony, and five bathrooms, each with a huge soak-in tub and a rain-shower combination. Each room has a private balcony that wraps around the side of the building. Private elevators and stairwells, four powder rooms, a chef's kitchen, and a laundry room are among the suite's many amenities. Plunging into the new outdoor plunge pool, you can gaze out over the Atlantic Ocean and beyond.
