

“AN OASIS OF HOLISTIC THERAPIES FOR THE SPIRIT, MIND, AND BODY, TIERRA SANTA HEALING HOUSE BLENDS ANCIENT HEALING RITUALS FROM AROUND THE WORLD TO AWAKEN CONSCIOUSNESS AND RESTORE WELLBEING.”

– ALAN FAENA

Regarded as the spiritual heart of Faena Hotel Miami Beach, Tierra Santa Healing House is a holistic sanctuary dedicated to the art of living well. Taking its name from Alan Faena’s idyllic Punta del Este estate meaning “holy ground,” every detail of the oceanfront spa is crafted for rejuvenation, meditation and contemplation.

The Tierra Santa journey cultivates transformative healing by combining indigenous ingredients, energetic practices and state-of-the-art technology with a jasmine-infused hammam, marble Wet Spa and a menu of South American body therapies inspired by shamanic wisdom. Our team of experts, well-versed in modern and alternative medicine, deliver unparalleled healing treatments that restore vitality and elevate the spirit.

1

A JOURNEY THROUGH OUR HEALING HOUSE

Step into a space filled with vibrant color, soothing scents and a stillness that penetrates the depths of your being. Soft-spoken guides usher you through each phase of your healing journey, commencing with sweeping ocean vistas, freshly-brewed Tierra Santa tea and the cleansing aroma of Palo Santo. Our purifying Wet Spa is a temple of water and heat that detoxifies the spirit, mind and body, preparing each guest for a range of health-giving rituals and therapies.

THE WET SPA

BEFORE YOUR TREATMENT, ENJOY THE WET SPA

Our approach to healing is very simple. We use an exclusive hand-blended, plant-based range of Tierra Santa muds, scrubs and essential oils inspired by generations of shamanic wisdom in South America. These homeopathic ingredients are activated by heat and steam, resulting in profound physical, mental and spiritual purification and restoration.

1. STAGING AREA

After a warm welcome, we will prepare you for the spa journey. Hang your robe, collect a *peshtamal* towel and slice slivers of handmade soap into a copper bowl. Settle your mind with deep cleansing breaths and you're ready to begin. We encourage you to use sandals during the wet spa experience.

2. WATERFALL

Every guest's journey starts and ends in the Waterfall, a shower that prepares the body for heat therapy, and provide final cooling and cleansing before departure.

3. HAMMAM

A time-honored cleansing ritual featuring a heated hexagonal *gobek tasi* made of Amazonite stone where scrub treatments are performed by intuitive therapists. Destress while inhaling jasmine-infused steam and relax as the stone's warmth soothes sore muscles and joints, easing all tension.

4. HERBAL STEAM ROOM

The hottest room in the facility supports advanced detoxification and cleansing. The calming aroma of eucalyptus is released to purify the respiratory system, deeply cleansing the nasal passages and lungs to promote ultimate relaxation.

5. WET SCRUB

This space offers specialized hydrotherapy treatments and traditional body scrubs featuring state-of-the-art technology (*additional charges apply*).

6. SAUNA

An age-old Scandinavian heat therapy with revitalizing wild orange essential oil. Multi-tiered, beautifully-curved seating is handcrafted from African Obeche and the walls are made from Canadian Hemlock, enveloping you in comforting warmth.

7. ICE PARLOR

The marble two-seat Ice Parlor cools the body using a combination of ice and air. The interplay of hot and cold on the skin widens the arteries and stimulates blood flow and the metabolic system, which helps strengthen the immune system.

8. TEPIDARIUM

Recline on heated stone beds heated to body temperature comforts and relaxes as you lie back and sip on our refreshing Tierra Santa tea.

UNIQUE HEALING ARTS

Our Unique Healing Arts body rituals offer an immersive introduction to shaman-inspired therapies,

Pranic Healing and massage arts. Each Healing Art treatment is performed with our own organic hand-blended range of Sacred Oils, butters, resins, healing stones and poultices. Traditional curative practices are combined with indigenous ingredients ethically sourced from South America. Every treatment is an opportunity to improve your health and transform your life through the therapeutic power of touch, sound, color, taste and scent.

PRANIC HEALING, PALO SANTO & SOUND BOWLS

(60 minutes)

Pranic Healing is a system of energy medicine used to harmonize, balance and transform the body's energy processes to restore physical, mental and emotional health performed by certified practitioners. This three-part energetic purification ritual begins with a thorough cleansing and balancing of the chakras. The body is further purified with the gentle uplifting aroma of Palo Santo smoke, a sacred tree from the east coast of South America known for its mystical healing properties. To finish the treatment, sound bowls are used to quiet the mind through vibrational sound harmonics that synchronize brainwave frequencies.

SACRED CONNECTION RITUAL

(50 / 80 minutes)

Two therapists connect to and harmonize the body's energy flow to alleviate physical and mental tension. Using our sacred oils, with ingredients sourced from South America, four hands work in harmony to perform a full-body massage that relieves tight muscles and releases energetic blocks. A relaxing face massage is then performed with an application of healing Calendula moisturizer. Our singing bowls enhance the treatment's therapeutic effects through specific rhythmic vibrations that relieve stress and improve clarity, vitality and intuition.

TREE OF LIFE VIBRATIONS

(110 minutes)

A Tierra Santa signature treatment, this nature-inspired therapy draws on ancient healing traditions practiced for generations. The treatment commences by selecting a fragrant essential oil used for aromatherapy. As the body rests on a heated bed, a combination of Sacred Oils are poured on tension points along the spine. A hot stone massage is then applied to the body's symbolic "Tree of Life:" starting at the lower back—the roots, along either side of the spine—the trunk, and into the upper shoulders and neck—the branches. Sound enhances the therapeutic effect of this transformative treatment. Nepalese singing bowls handmade from seven different metals are used to gently warm and soothe the lower back, slowly diffusing its vibrations to release deep-seated tension in the body. There is an option of extending the sound therapy to each of the main chakras. Please consult your therapist for details.

MASSAGE THERAPY AND BODYWORK

TIERRA SANTA DEEP TISSUE

(80 minutes)

During the 80-minute treatment, specific areas of tension are soothed away with the application of warm shaved-coconut compresses.

MASAJE CON FLOR BLANCA

(80 minutes)

Incorporating orange blossom essential oil, a tonic used for hundreds of years to induce bliss, calm the nerves and increase blood flow, this massage is applied with smooth volcanic lava rocks that have been heated to penetrate the oil deep into the body. It is a perfect accompaniment to any detox therapy that helps release muscle tension and stimulate lymphatic drainage.
