– ALAN FAENA

Regarded as the spiritual heart of Faena Miami Beach, Tierra Santa Healing House is a holistic sanctuary dedicated to the art of living well.

Taking its name from Alan Faena's idyllic Punta del Este estate, meaning "holy ground," every detail of the oceanfront spa is crafted for rejuvenation, meditation, and contemplation.

The Tierra Santa journey cultivates transformative healing by combining indigenous ingredients, energetic practices, and state-of-the-art technology with a jasmine-infused hammam, marble Wet Spa, and a menu of South American body therapies inspired by shamanic wisdom. Our team of experts, well-versed in modern and alternative medicine, delivers unparalleled healing treatments that restore vitality and elevate the spirit.

1

A JOURNEY THROUGH OUR HEALING HOUSE

Step into a space filled with vibrant color, soothing scents, and a stillness that penetrates the depths of your being. Soft-spoken guides usher you through each phase of your healing journey, commencing with sweeping ocean vistas, freshly-brewed Tierra Santa tea, and the cleansing aroma of Palo Santo. Our purifying Wet Spa is a temple of water and heat that detoxifies the spirit, mind and body, preparing each guest for a range of health-giving rituals and therapies.

THE WET SPA

BEFORE YOUR TREATMENT, ENJOY THE WET SPA

Our approach to healing is very simple. We use an exclusive hand-blended, plant-based range of Tierra Santa muds, scrubs, and essential oils inspired by generations of shamanic wisdom in South America. These homeopathic ingredients are activated by heat and steam, resulting in profound physical, mental, and spiritual purification and restoration.

1. STAGING AREA

After a warm welcome, we will prepare you for the spa journey. Hang your robe, collect your towel, and slice slivers of handmade soap into a copper bowl. Settle your mind with deep cleansing breaths and you're ready to begin. We encourage you to use sandals during the wet spa experience.

2. WATERFALL

Every guest's journey starts and ends in the Waterfall, a shower that prepares the body for heat therapy, and provides final cooling and cleansing before departure.

3. HAMMAM

A time-honored cleansing ritual featuring a heated hexagonal *gobek tasi* made of Amazonite stone, where scrub treatments are performed by intuitive therapists. Destress while inhaling jasmine-infused steam and relax as the stone's warmth soothes sore muscles and joints, easing all tension.

4. HERBAL STEAM ROOM

The hottest room in the facility supports advanced detoxification and cleansing. The calming aroma of eucalyptus is released to purify the respiratory system, deeply cleansing the nasal passages and lungs to promote ultimate relaxation.

5. WET SCRUB

This space offers specialized hydrotherapy treatments and traditional body scrubs featuring state-of-the-art technology (*additional charges apply*).

6. SAUNA

An age-old Scandinavian heat therapy with revitalizing wild orange essential oil. Multi-tiered, beautifully-curved seating is handcrafted from African Obeche, and walls made from Canadian Hemlock, envelop you in comforting warmth.

7. ICE CHAMBER

The marble two-seat Ice Chamber cools the body using a combination of ice and air. The interplay of hot and cold on the skin widens the arteries and stimulates blood flow and the metabolic system, which helps strengthen the immune system.

8. TEPIDARIUM

Recline on heated stone beds warmed to body temperature, which comfort and relax you as you lie back and sip on our refreshing Tierra Santa tea.

ESPÍRITU SANADOR
PRANIC HEALING, PALO SANTO
& SOUND BOWLS

(60 minutes) Pranic Healing* is a system of energy medicine used to harmonize, balance, and transform the body's energy processes to restore physical, mental, and emotional health performed by certified practitioners. This three-part energetic purification ritual begins with a thorough cleansing and balancing of the chakras. The body is further purified with the gentle uplifting aroma of Palo Santo smoke, a sacred tree from the east coast of South America known for its mystical healing properties. To finish the treatment, sound bowls are used to quiet the mind through vibrational sound harmonics that synchronize brainwave frequencies.

Sound enhances the therapeutic effect of this transformative treatment. Nepalese singing bowls handmade from seven different metals are used to gently warm and soothe the lower back, slowly diffusing its vibrations to release deep-seated tension in the body. There is an option of extending the sound therapy to each of the main chakras. Please consult your therapist for details.
